

Rodrigo Pardo

Rockville, MD 20852 • 301-693-4495 • rpardo440828@gmail.com

Development Experience:

- **Agile Web App Development**
 - Wrote fitness application in React JS in a scrum agile environment while using Jira to monitor sprints. The app allows the user to create workout sheets from the list of workouts, search for workouts, and it resizes itself based on the screen size. It used an exercises API from API Ninjas. (<https://cmssc447-fitness-app.netlify.app/>)
- **Independent Freelance Development**
 - **Client-based Development**
 - Independently created a portfolio website in React JS, while using Jira to monitor self-progress. Client is a local artist that connects to a square site booking page. (<https://beeztattz.com/>) GitHub Code: (https://github.com/rpardo440828/Tattoo_App_Deployment)
 - **Full Stack Development**
 - Created an NFL fantasy information website using React JS. I used axios to retrieve the data from Rapid API. The website shows top news stories regarding players, each NFL team schedule, and stats / fantasy data for each player organized by roster. GitHub Code: (<https://github.com/rpardo440828/nfl-fantasy-info-app>), Website: (<https://nflfantasyinfo.netlify.app/>)
 - Created a collection website using React JS, Node JS, and MySQL. The website has login capabilities. More information on GitHub ReadMe. GitHub Code Backend: (<https://github.com/rpardo440828/mysql-app-deploy>), GitHub Code Frontend: (<https://github.com/rpardo440828/mysql-app-frontend>), Website: (<https://collectionwebsite.netlify.app/>)
 - Created a recipe search website that allows a user to search for recipes based off of a few parameters. The site uses Edamam's Recipe API to search for recipes. Project was created using React JS, Node JS, and MySQL. GitHub Code Backend: (<https://github.com/rpardo440828/recipe-edamam-app-backend>), GitHub Code Frontend: (<https://github.com/rpardo440828/recipe-edamam-app-frontend>), Website: (<https://recipesearchsite.netlify.app/>)
